### ***CORRECTION REGARDING LOCAL GOVERNMENT SALARIES DISREGARD PREVIOUS INFORMATION***

***DISREGARD SALARY OF LOCAL GOVERNMENT OFFICIALS DISTRIBUTED THIS MORNING  
EDR HAS ASKED THE DEPARTMENT OF MANAGEMENT SERVICES TO RECALCULATE***

EDR believes DMS made an error in the calculation of the Annual Factor. EDR has asked DMS officials to review the issue and provide EDR with a revised certification letter.

Pursuant to s. 145.19(1)(a), F.S., the term Annual Factor ***means 1 plus the lesser of either:*** 1) the average percentage increase in the salaries of state career service employees for the current fiscal year as determined by the DMS or as provided in the General Appropriations Act; or 2) 7 percent. Consequently, we believe that the certified Annual Factor for FY 2022-23 should be 1.0700 rather than 1.0956.
