General Update

Budget Doc's

The following document includes the various proposals will guide the negotiations over the FY25-26 Budget. - [Senate and House Proposed Budget Documents .docx](#)

Funding Comparison of Proposed FEFP Funding to Current Year

Current Funding - 24-25 FEFP 3rdCalc.pdf	\$28,590,844,425
Governors Recommendation for the FEFP	\$29,655,931,656
Senate Proposal for the FEFP	\$29,575,330,118
House Proposal for the FEFP	\$29,338,511,640

School Start Time Repeal Moves Closer to Final Passage

The Senate has passed the committee version of legislation (**SB 296**) that would **overturn a 2023 law** requiring high schools and middle schools to start later. The 2023 law mandated that middle schools could not start before 8 a.m. To comply with the new legislation, schools would be required to remind the public about the importance of sleep and at least consider starting later. The schools must document their efforts in a report to the Florida Department of Education. The House companion bill (**HB 261**) is also ready for the floor.

HB 1595 - Solar Facilities On House Committee Agenda Tuesday

[House Bill 1595](#) - is on the House Intergovernmental Affairs Subcommittee this Tuesday at 8:00 am, in 17 HOB – the bill amends provisions for solar facilities, focusing on proper decommissioning and land restoration. (The Senate version -SB 1304 – has passed one committee) The House Bill does the following

- Revises legislative intent to ensure agricultural land used for solar facilities is restorable and viable for agricultural use after the facility's lifecycle.
- Defines "agricultural land" and "decommissioned", and sets conditions for identifying a solar facility as decommissioned.
- Authorizes counties to adopt ordinances requiring decommissioning of solar facilities once they are deemed to have ended their useful life, with conditions for presuming such an end.

- Grants counties the ability to require financial assurances from solar facility owners, such as bonds or letters of credit, to cover decommissioning costs.
- Specifies that counties can demand updates every 5 years on the estimated decommissioning costs and adjust required financial assurances accordingly.
- Allows county action to enforce decommissioning if the solar facility owner fails to meet required standards.
- Removes provisions that previously treated solar facilities as permitted uses in certain land use categories, subjecting them instead to new decommissioning requirements.

Tax Cuts On The Table

This week, House Speaker Danny Perez called for a reduction in state sales tax from 6 cents to 5.25 cents. The impact of this action would reduce state revenues by approximately \$5 Billion. The Senate has no similar proposal but proposals to increase property tax exemptions are still alive in both the House and Senate.

DeSantis Committed to Protecting Fiscally Constrained Counties

DeSantis said Tuesday he's willing to work with "fiscally constrained" rural counties to offset the effects of property tax cuts. "They don't have the same luxury that a Broward County would have or a Miami-Dade County would have when you have people that are flooding down there," DeSantis said. He added that to economically "juice" rural areas, he'd support efforts to land auto manufacturers. He pointed to areas that have been hit by recent hurricanes, such as North Florida's Big Bend region.
